CAREER OBJECTIVE

Professional **Full Stack Developer** with practical expertise in developing efficient, **type-safe**, and performant web applications using technologies like **Next.js**, **Node.js**, **TypeScript**, and **PostgreSQL**. Expertise in improving the efficiency of queries, creating event-driven architectures, and implementing **AI-based utilities** for increased efficiency of workflow. Looking for Full Stack, Frontend, or Backend positions.

WORK EXPERIENCE

Jr MERN Developer

Softvance Agency - Jan, 2026 - May, 2026

- Developed full-stack capabilities using **Next.js App Router & Server Components**, reducing the size of the client bundle by around 30% and improving Core Web Vitals.
 - Converted **Figma** designs to modular and typesafe **React/Shadcn** components for UI development across multiple sprints.
 - Developed and supported RESTful API calls using **Node.js & PostgreSQL/Prisma**.
-

KEY SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), SQL, HTML5, CSS3
 - **Frontend:** React.js, Next.js (App Router), Redux Toolkit, TanStack Query, TanStack Table, Tailwind CSS, Shadcn UI, React Hook Form, Zod
 - **Backend & DB:** Node.js, Express.js, PostgreSQL, Prisma ORM, MongoDB, Mongoose, REST APIs, WebSockets (Socket.io)
 - **AI & DevOps:** AI SDK, RAG, OpenAI API, MCP, Git, GitHub Actions, Vercel, Render
-

PROJECTS

Full-Stack Pharmacy & Inventory Management System - [Live Demo](#) | [Github Repo](#)

- **Transactional POS Terminal:** Architected a multi-step checkout workflow in **Express.js** using **Prisma database transactions** to perform atomic stock decrements, ledger entries, and order creation in a single round-trip.
- **Server-Side Data Grid Optimization:** Integrated **TanStack Table v8** with **React Query (v5)** keepPreviousData caching pattern to deliver instant pagination and dynamic filtering, reducing UI shift during page transitions.
- **Spec-Driven Monorepo Architecture:** Structured a **modular Turborepo monorepo** with shared **Zod** validation schemas and type packages across **Next.js 16 (App Router)** and **Express.js 5** to guarantee end-to-end type safety.
- **Tech Stack:** React.js, Next.js, TypeScript, Express.js, PostgreSQL, Prisma, TanStack Table, Zod, Tanstack Query, JWT

High-Performance Multi-Tenant Board System - [Live Demo](#) | [Github Repo](#)

- **Fractional Ordering Engine:** Implemented a logarithmic float positioning algorithm for columns and tasks, enabling $O(1)$ drag-and-drop reordering without database re-indexing locks.
 - **Responsive Multi-Tier Layout:** Developed a tier-aware UI using **Next.js 16** and **@dnd-kit**, rendering touch-optimized tab workflows on mobile and pointer drag mechanics on desktop.
 - **Automated Security Audit:** Built an **Express 5** and **Zod** validation framework with a custom route auditor script to ensure 100% input validation coverage on private endpoints.
 - **Tech Stack:** Next.js, TypeScript, Express.js, PostgreSQL, TanStack Query, React Hook Form, Zod, JWT
-

EDUCATION & CERTIFICATES

- **Next Level Web Development Bootcamp** - Programming Hero - [Link](#)
- **AI Engineering Path** - Scrimba - [Link](#)
- **Claude Code for Professional Developers** - Code with Mosh - [Link](#)
